NEVER ALONE
ALWAYS ONGUARD

OnGuard Lone Worker is a comprehensive lone worker safety, monitoring and communication service that makes it easy to keep in touch with your workforce in defined groups, and addresses even the most rigorous lone worker legislative requirements.

OnGuard Lone Worker is designed to enable more effective management and monitoring of employee safety. Working in conjunction with the OnGuard Mobile Client, our Web based Emergency Response Center improves management control, eases the administration of workplace safety programs, and meets or exceeds Lone Worker Legislation.
